Racing is my passion, so when I put together this years NIKS Industries catalog my desire was to add some innovative new product lines that may otherwise, never be discovered.

When I'm at the races it seems everyone is running the same products. Some people may say "well it's because those things work". The fact is, a lot of dealers carry same products as the next dealer because they are all buying from the same distributor. In reality, there's a lot of great products out there that never make its way to the dealer's shelf.

Although NIKS Industries is a fairly new company, our parent company (L.A. Sleeve Co.) has over 63 years of motorcycle industry experience. We are in a unique position to be able to draw from their immense experience and offer some fantastic new products to our dealers.

Please take look through our 2008 catalog and think about offering your customers something different. There is new money to be made and new customers to earn. We feel confident that your customers will enjoy using these new products as much as we enjoy providing them. I have personally race tested all the products in this catalog and I assure you these products are genuine!
